

STUDENT SUCCESS STORY

Panabakam Puneeth

...

02

STUDENT PROFILE

Name: Panabakam Puneeth

Background: Non-IT Background

Placed At: Wipro, Pune

Package: 7 LPA

BACKGROUND

03

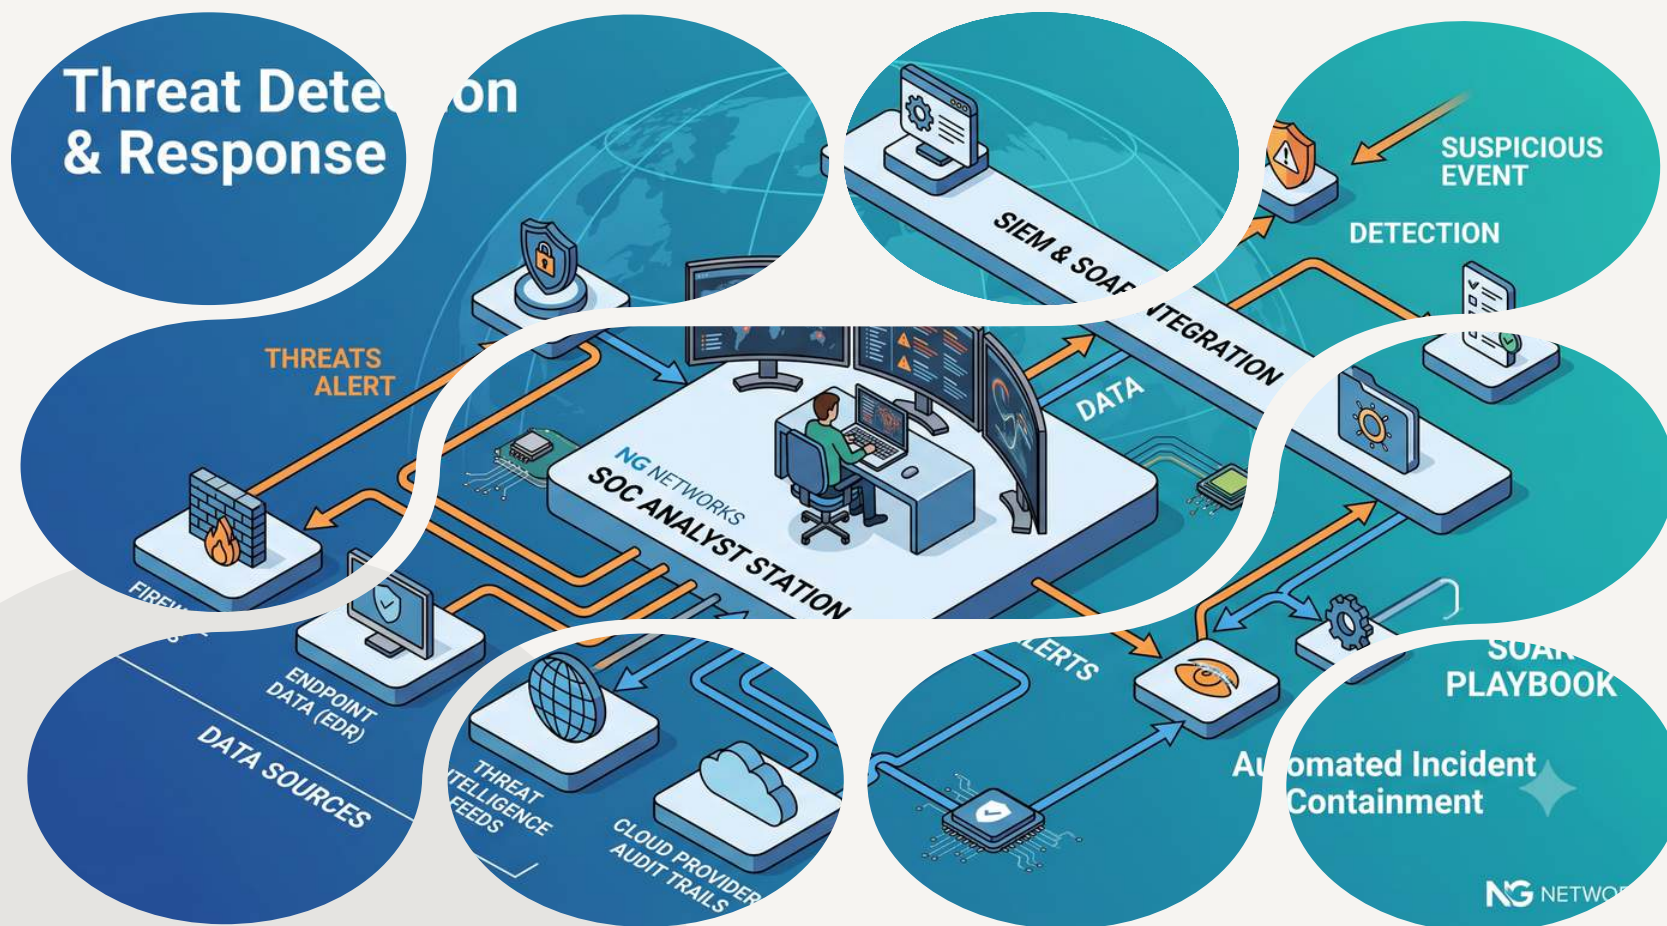

Panabakam Puneeth discovered NG Networks while researching different training programs and career opportunities.

After comparing multiple options and going through feedback and videos of previously placed students, he found NG Networks to be a genuine and promising platform for building his career.

Coming from a non-IT background, Puneeth was looking for a program that could help him understand networking concepts from the fundamentals.

The structured learning approach and basic-to-advanced progression gave him the confidence to begin his journey.

His efforts eventually led to a successful placement at Wipro, Pune, with a ₹7 LPA package.

CHALLENGES

04

Starting a technical career from a non-IT background can come with several challenges.

Starting From Scratch

Building an understanding of networking fundamentals without an IT background.

Understanding Industry Expectations

Learning what technical and professional skills companies expect from candidates.

Building Technical Confidence

Developing confidence while learning new networking concepts and technologies.

Preparing for Company Environments

Understanding how technical knowledge translates into real workplace situations.

Interview Preparation

Learning how to approach interviews and handle different recruitment situations effectively.

WHY NG NETWORKS?

05

1. Module-Wise Screening

Screening sessions after each module helped assess progress and ensured candidates were prepared before moving forward.

2. Basic-to-Advanced Learning

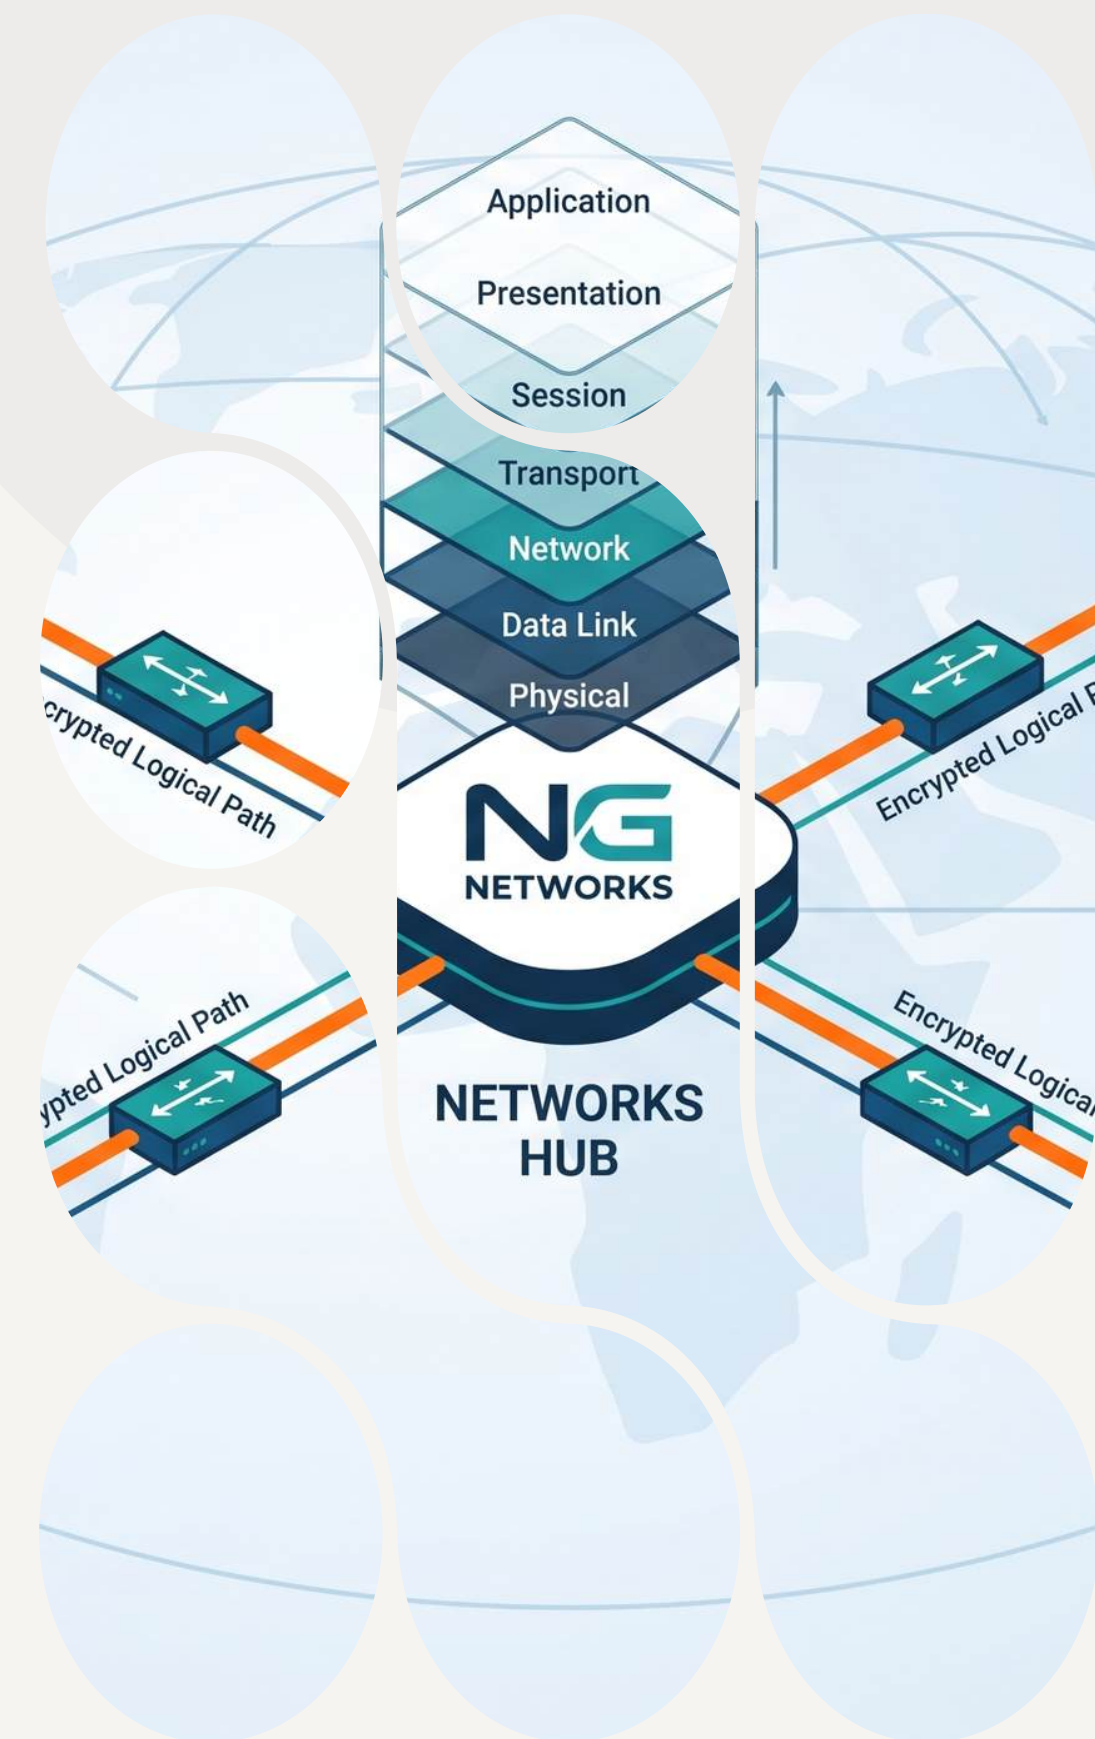

The Day One webinar with Nitin Goswami clearly explained the program structure and learning progression.

3. Strong Networking Fundamentals

The basic networking training was particularly valuable for Puneeth as a candidate from a non-IT background.

4. Real-Time Training

Training went beyond technical concepts by preparing candidates for company environments, workplace situations, and interview scenarios.

LEARNING JOURNEY

06

Puneeth's journey focused on building a strong technical foundation and gradually developing the confidence required for the professional environment. It includes Program Induction & Orientation, Networking Fundamentals, Real-Time Company Environment Preparation, Interview Preparation, Placement Support.

07

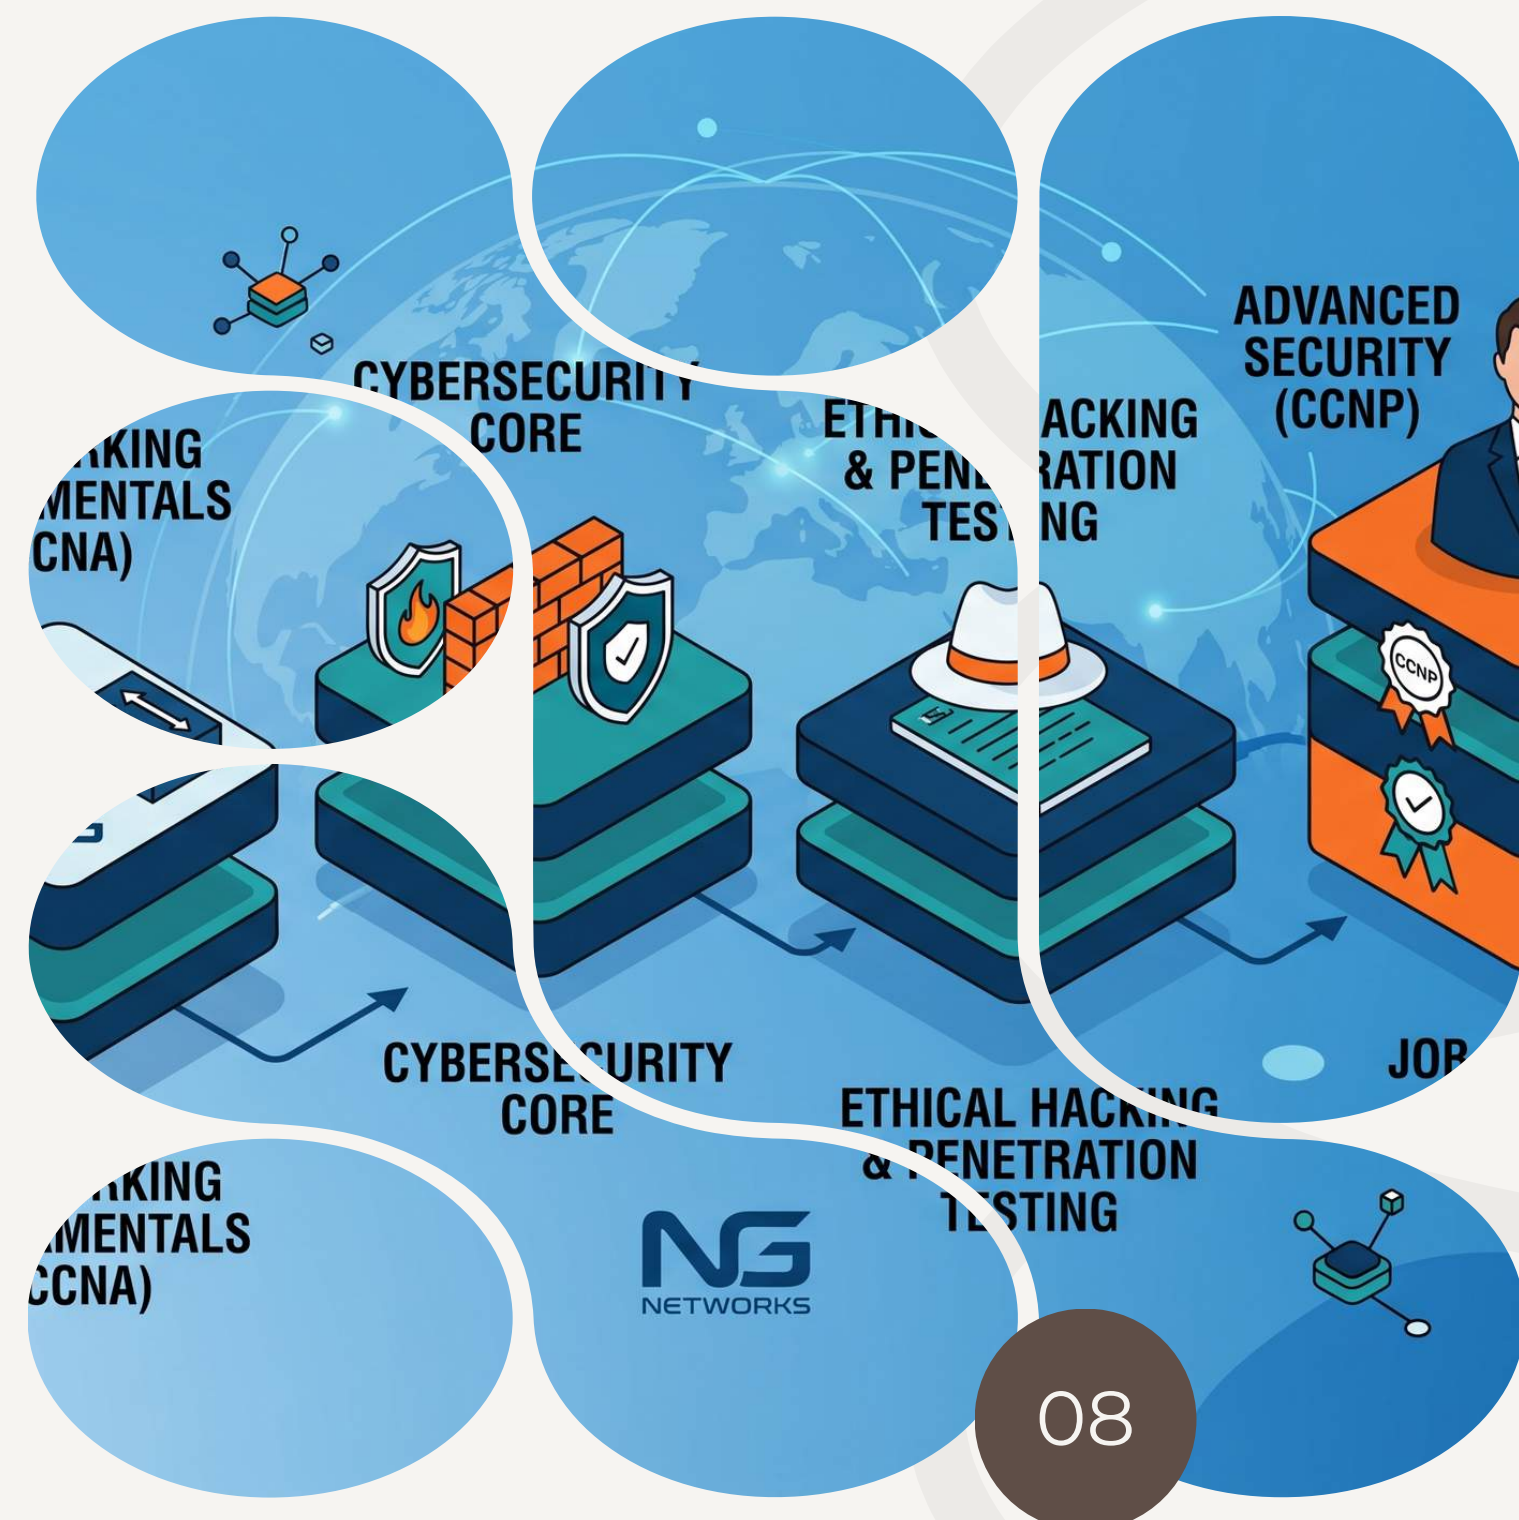

TRANSFORMATION

Puneeth's journey demonstrates how structured training and consistent preparation can help candidates transition into the IT industry, even when starting from a non-IT background.

PLACEMENT SUCCESS

Panabakam Puneeth successfully secured a ₹7 LPA placement at Wipro, Pune, fulfilling his goal of starting a career with a leading organization.

STUDENT TESTIMONIAL

I am very excited to start my journey with Wipro. I honestly did not expect to get placed in such a company, but NG Networks helped me reach this opportunity.

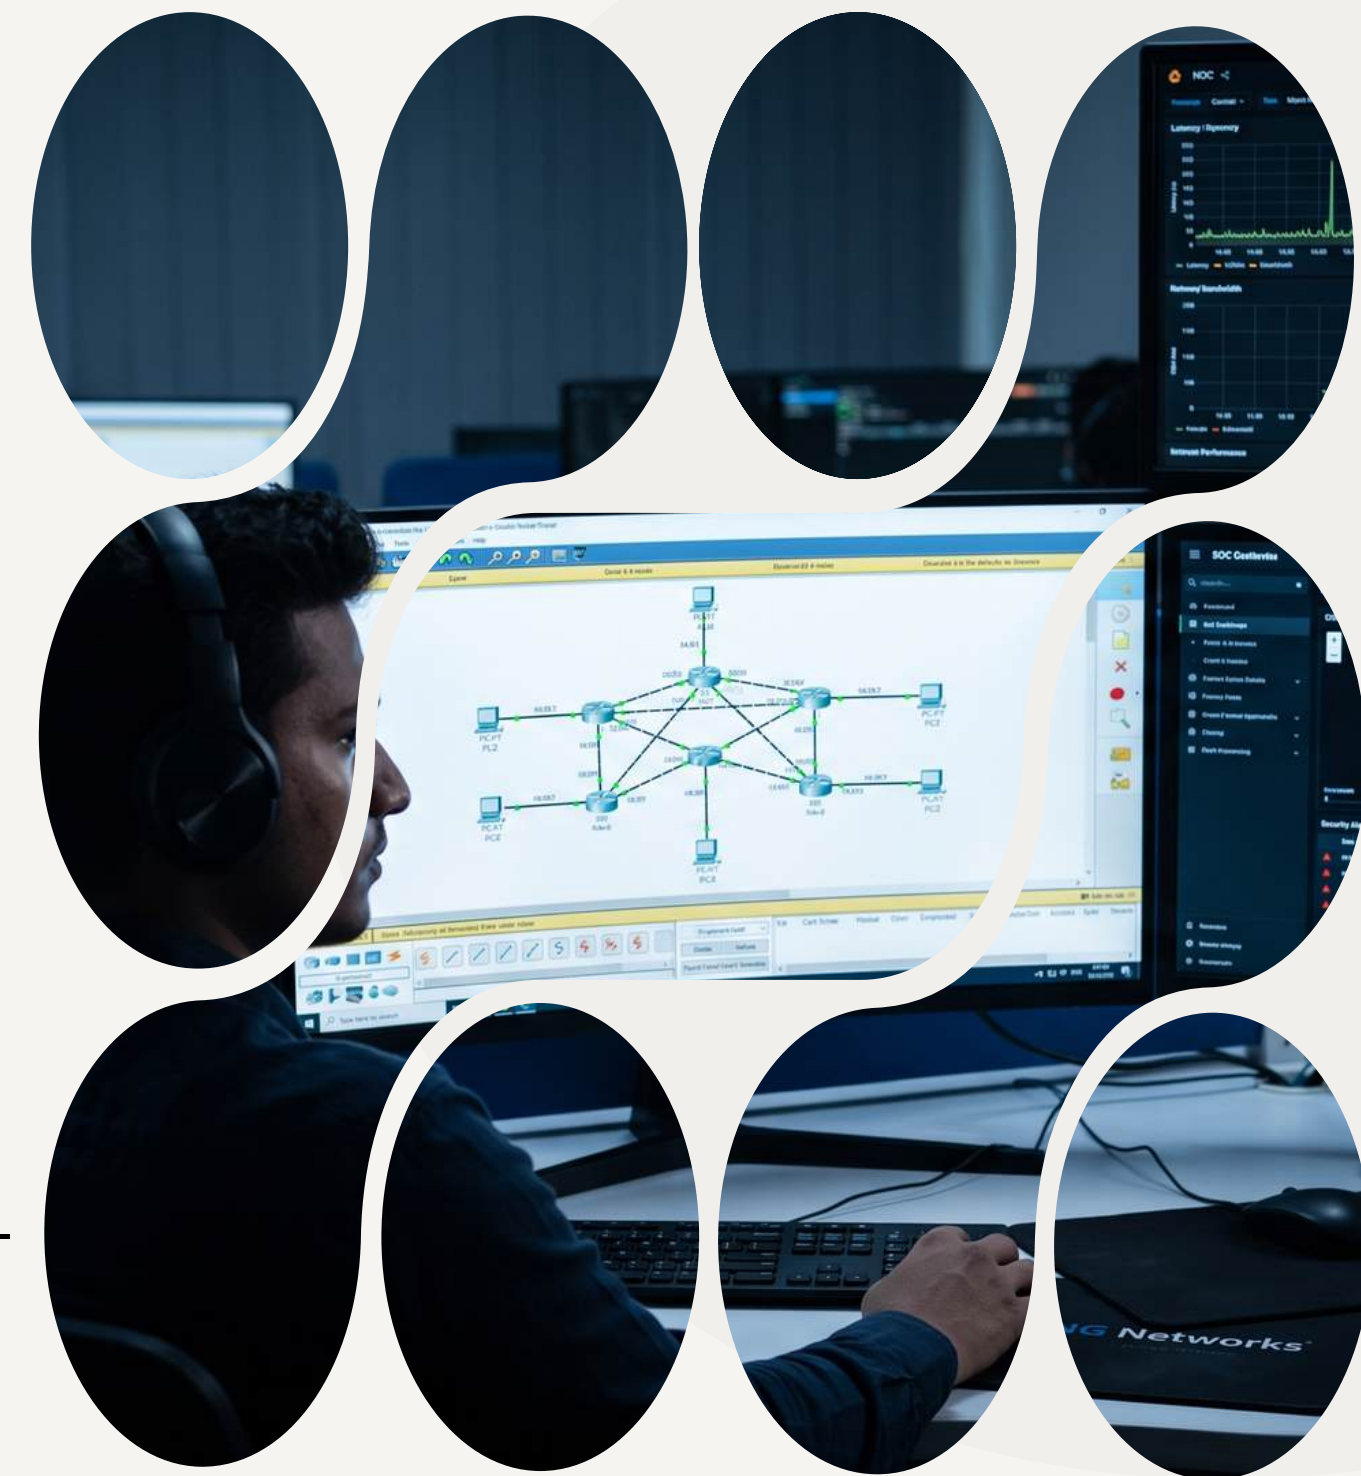

On Training

Coming from a non-IT background, he found the networking fundamentals particularly helpful in building his technical foundation.

On Real-Time Training

While technical training focused on developing technical skills, real-time training helped candidates understand company environments, interview techniques, and workplace situations.

Successfully placed at Wipro, Pune, with a ₹7 LPA package.
